Focus on China's Paper Industry

Construction Started for the Expansion Projects of Jianghe Paper's 300,000 t/a Paper Production Line

On April 26, Henan Jianghe Paper held a groundbreaking ceremony for the expansion projects of its 300,000 t/a paper production line at its new production location.

The design capacity of the 300,000 t/a paper production line includes 40,000 t/a of security paper, 160,000 t/a of specialty base paper, and 100,000 t/a of super calendar paper. All products use market wood pulp as raw material. The project includes one 3200/600, and two 5600/1200 fourdriniers, culture paper machines. The total investment

for the project is RMB 1.06 billion.

Jianghe Paper is a private company which engages in the development and manufacturing of high-grade specialty papers and papermaking equipment. It has registered capital of RMB 50.55 million and total asset of RMB 1.5 billion and is located in Wuzhi, Henan province. With a current production capacity of 280,000 tons, Jianghe Paper mainly uses market pulp as the raw material to produce specialty papers such as carbonless papers and thermal-sensitive papers.
